Re: Kodiak Sand and SRE Storage Building Project

Dear Dave:

I would like to recognize Criterion's outstanding performance in designing and constructing the Kodiak Sand and Snow Removal Equipment (SRE) Storage Buildings. Criterion showed its mastery of the design-build process by seamlessly completing the project months ahead of schedule. This produced substantial savings for the State, and enabled the user group to benefit from early occupancy.

Criterion is also truly distinguished in its professional, customer service oriented philosophy. Its staff diligently sought to satisfy the user's needs, offered innovative ideas, and facilitated the management process. A spirit of teamwork prevailed throughout the job, resulting in a quality product that was very well delivered. We offer many thanks for a job well done.

Sincerely,

Matt Tanaka, P.E.
Project Manager
